	Document ID	Title	Current OR	Inventor
1	US 20030177535 A1	Genes for altering mitochondrial function and for hybrid seed production	800/287	Hanson, Maureen et al.
2	US 20030159171 A1	Novel plant genes and uses thereof	800/279	Salmeron, John Manuel et al.
3	US 20030140375 A1	Nucleic acid molecules from rice encoding RAR1 disease resistance proteins and uses thereof	800/282	Sainz, Manuel B. et al.
4	US 6706952 B1	Arabidopsis gene encoding a protein involved in the regulation of SAR gene expression in plants	800/301	Cad, Rebecca M. et al.
5	US 6528702 B1	Plant genes and uses thereof	800/278	Salmeron, John Manuel et al.
6	US 6479735 B1	Transgenic plants including a transgene consisting of a hybrid nucleic acid sequence, comprising at least one unedited mitochondrial gene fragment from higher plants and process for producing them	800/303	Araya, Alejandro et al.
